Does the animal deal with this easily or is there a "trick"?

Subcutaneous fluids (Please specify medical condition for which fluids are administered):

Does the animal deal with this easily or is there a "trick"?

Other medications or therapies (massage, Reiki, etc.):

Fears and phobias:

History of aggression? Known triggers?

Any fear of noises, thunder, etc.?

For dogs only: how does your dog react to other dogs at the park, on a walk, etc.?

For dogs only: has this dog ever bitten? Snapped? If so, please explain circumstances.

General:

For dogs only: has this dog been through any training?

For dogs only: what kind of lead do you use on walks?

For cats only: is your cat allowed outside when you are here?

We do not allow cats outside unless specifically directed to do so by the owner. Should we allow your cat out? Yes No

Please list any words your animal knows, so I can use the same terms.

For male cats only: has your cat ever had a urinary tract blockage? If so, when was the last time this occurred?

History of chronic health problems:

Are there symptoms of the chronic illness for which a caregiver should watch carefully?

Who is this animal's veterinarian?

When was the last visit?

Vet's phone number?

Is this animal current on vaccinations?

Any other relevant or pertinent information?

I, _____, "owner" of above described companion animal, hereby certify this information to be complete and correct to the best of my knowledge.
